Jessica

Attached is the information that you requested in regards to your FOIA request (EPA-R2-2014-00423), for the Sherwin-Williams Superfund sites, located in Gibbsboro, New Jersey.

Please note, that information in regards to your requested was provided by the Sherwin-Williams Company in response to a 104(e) request made by EPA in 1995.

Also, just a note, as you will see in their response, they do cite that information on past materials used was kept at a law firm in New Jersey. This is perhaps something you may find useful to look into if the information you requested is not present in the materials attached.

Any questions, please contact me.

Thank you,
Ray
